

Managed North Shore Childcare

Situated in a high-quality suburb on Auckland's North Shore, this childcare centre, licenced for under 40 children, has maintained an average occupancy rate of approximately 85%. However, it recently experienced a decline in occupancy for known reasons but with future bookings, is now beginning its path back.

This ECE is well-staffed and commands higher-than-average parental fees. The centre operates within a converted house that underwent renovations during the COVID-19 pandemic and is situated on a spacious property.

In the FY 2023, the business generated a profit of \$164,000 after accounting for rent expenses. While expected to be considerably lower than this in 2024, this still presents a significant opportunity for a new owner to not only increase occupancy but also acquire a well-established business at an attractive purchase price.

The asking price for the business is \$395,000.

Additionally, the vendor may consider selling the land and buildings as well, providing potential options for the buyer.

Price \$395,000
