

World Leader in Advanced Manufacturing for Technical Industries

This locally grown business is leading the charge in advanced manufacturing across the globe. Utilising cutting-edge technology, this business services specialised engineering fields and offers a collaborative and agile manufacturing service.

The handpicked team holds some of the highest-level training in the world and has unmatched experience and expertise in their craft. Operating for almost a decade in regulated industries has allowed them to build the technical foundation and systems to consistently deliver high-quality services and outcomes to the exact customer specification.

Organisations worldwide are turning to industry 4.0 providers like this to help modernise their supply chains. With a bright future ahead, the business is ready to expand forwards. It will soon need further investment of up to NZ \$3 million to support expansion into new premises and purchase additional equipment to meet the demand increase and continue the current trajectory of success.
