To Whom It May Concern

After deciding to relocate to Australia, we engaged the services of Barker Business Brokerage to help us sell our business. Their response was very quick providing us with a free appraisal of the business and then, from our first meeting, we were impressed with the professionalism, resources and knowledge of this company.

Jeff Ribman was our broker and he was very polite, easy to understand, knowledgeable and he was always on top of everything. He answered all our questions and kept us informed every step of the way.

The business attracted many potential buyers and generated hundreds of questions which Jeff managed to answer and condensed the potential buyers so he only brought to us the people genuinely interested in the business saving us time and allowing us to continue dealing with our business normally and without distractions.

The business was sold successfully and within a relatively short period of time.

Thanks Jeff for your professionalism and dedication and for helping us to go through this process in a very smooth way.

Kind Regards

Carlos Alzate
