

## To Whom this may concern

9/2/2010

Dear Sir / Madam,

Based at Northcote, North Shore City Pauling Industries Ltd. is a leading manufacturer of skincare products such as, moisturiser, sunscreen, anti-aging serums.

I started this business 18 years ago, the time has come to a stage seeking retirement. I could not devote extensive time managing the business to expand, we began searching for a business broker, and in the process we came across Barker Business Brokerage through Chris Sweetman.

We worked closely together over a period of three months, Chris demonstrated his professional knowledge, insight, aspirations and effectively organized our campaign. Deciding to use Barker Business Brokerage was the best decision. They have taken a huge headache off my head and enabled us to concentrate on what we do best, continue to manufacture our products. It wasn't long before the results started to show. Now I am getting semi-retired – and more significantly, the business continue to grow.

I was really impressed with the large customer base and quick responses through Chris. The sale process went through flawless to the date of hand-over.

I would recommend Barker Business Brokerage to anyone who is looking for a highly professional consultant for the sale of their business services.

Best Regards
