Manufacturing Key Market Player \$4M T/O

barker

Iconic Industry Leading Manufacturer

Backed by a 40+ year history, this market leading manufacturing business has an established, iconic name in the agricultural, horticultural, civil and construction industries.

The business came about when the now retiring owner discovered a very real gap in the market for specific machinery needs, and has been manufacturing innovative, high-quality implements since. These include two major product lines which are wholesaled to a large, carefully chosen dealer network throughout New Zealand and overseas. There is a secondary revenue stream generated from repeat spare parts and maintenance. The business turned over \$4M for the 2018 FY!

Proudly NZ owned NZ made, selected material suppliers ensure products are designed and made with robustness and strength in mind to suit our conditions and there are patents in place for major products.

First time on the open market with an asking price of \$1.7M – includes the large asset and stock base.
