Manufacturing Eureka! – 25% Annual Growth

Interested in a manufacturing business that is now competing at the forefront of its field in architectural design?

With only one other significant competitor of its size in Auckland and an increase in turnover on average by 25% per year for the last three years, this could very well be the investment vehicle you've been waiting for.

The business shows a 2019 Cash Surplus of \$423,559 which is up by 23.9% from last year – get your skates on and be prepared for an exciting ride.

But the best is yet to come

The current owner wants to stay on and work as a production manager. He's achieved his four-year goal and loves his trade but is not interested in the increased demand of running the ship on his own. So you get a valuable and friendly manager to run the floor while you can concentrate on running the business and increasing profit.

What's the catch? I haven't found one yet and as you'll discover with further investigation the financials are very consistent.
