

Accounting Practice... Take a Look at These Numbers

Accounting Practice Take a Look at These Numbers

This successful two partner full service Chartered Accountancy Practice is located in a thriving Auckland suburb and has been providing friendly and professional service for the last 19 years.

With over 800 clients, annual fees in excess of \$1,000,000 and an EBITDA north of \$400K per annum, this is a rare opportunity indeed. It is important to my vendors that as they retire the practice is left in the hands of an experienced Chartered Accountant able to service some substantial clients, if that sounds like you this is definitely worth a look.

It is also important to note this is the sale of a Going Concern practice and is NOT the sale of a book of fees. The successful purchaser will be expected to take over the lease, the staff and the systems and so this is reflected in the price.

Asking price \$1,275,000
