

**URGENT  
SALE**

## RELOCATABLE NORTHLAND APIARY - ASAP SALE REQUIRED

Currently running 530 hives throughout mid-Northland locations, this business is well prepared to accelerate significantly in the coming year. Unfortunately, it is being sold due to a genuine health issue leaving the way clear for a family looking to enter the very lucrative Manuka Honey industry where this is a perfect start particularly if you live on a rural property; or otherwise a current apiary considering an acquisition to expand their own business.

As we all know, the honey industry is scrambling New Zealand wide to secure sufficient supply to meet the insatiable demand from around the world for Manuka and other NZ Honey varieties.

With the production season just recently completed, we are advised that it has been a very successful season and there are even further opportunities available to ensure very good returns.

This industry has been extremely kind to most apiarists financially over the last 10 - 20 years, and this business is no different - particularly in the coming years.

Price:  
Stock - \$275,000 (subject to stocktake at Settlement)  
Tangibles (includes hives) - \$435,000.00  
Intangibles - \$265,000.00  
Total - \$975,000.00 plus GST if necessary  
Stock cost to be negotiated.

This will likely be a highly sort after business and if you are keen to move forward and regain your work / life balance in this lifestyle business, for further information you will need to visit [www.barkerbusiness.co.nz/BBS2474](http://www.barkerbusiness.co.nz/BBS2474), register your details and submit the online Confidentiality Agreement. Once Mike receives your expression of interest he will be in touch.
