## B2B Import/Dist, Relocatable, \$140K Cash Surplus

B2B Import/Dist, Relocatable, \$140K Cash Surplus With a successful 20+ year trading history, this profitable wholesale jewellery business is currently operating from a central office location. With minimal space required, it could be relocated anywhere in NZ and operated from a home base. The business offers a selection of quality jewellery, including exclusive ranges, to a solid nationwide retail client base. The vendors firmly believe they've just begun to scratch the surface to tap potential with other jewellery stores and fashion/accessory related retailers. Established relationships exist with European and local suppliers, with the business having exclusive import rights on a number of product ranges. Sadly, health issues force the sale of this thriving business which has been experiencing year on year growth under current ownership. This business would suit a husband & wife team or one full-time working owner with the help of a part time staff member. No particular experience is required, just enthusiasm to drive this business forward and capitalise on the solid brand which has been forged by the quality product, reliability and relationships built over many years. Asking Price: \$440,000 including stock of \$280,000 plus or minus 20% If you are interested and would like more information about this business, visit
