A Honey of a Business – Includes Land & Building

Located in the Kaipara District, this business has a very successful 36year history of honey production.

The honey industry is scrambling New Zealand wide to secure sufficient supply to meet the insatiable demand from around the world for Manuka Honey.

Competition is hot among producers to secure contracted access to the precious Manuka, and our Vendor's experience in the apiary industry has enabled them to not only identify the key production regions, but to secure access to excellent Manuka-producing land for their hives through agreement with other land-owners in areas throughout the North. Fully contained purpose-built buildings on the property also included in the sale more than suffice for this 800-hive operation. The business is run with 2 full time staff who are very competent in apiary practices and production techniques. The hives are efficiently distributed throughout the Far North Island using purpose appropriate vehicles owned by the business.

A strong desire by our Vendors to finally retire and enjoy the financial benefits this business has produced over the years for them is the driver for the sale. A sound hand-over is
