

APIARIES AVAILABLE UP & DOWN THE COUNTRY

The Country's Buzzing With Bees! Apiaries For Sale

The big buzz word is HONEY, the season is here, and I have a number of apiaries for sale throughout Northland, Waikato and the Bay of Plenty all ready and waiting to capitalise on the coming season.

Apiaries from 265 hives through to 4,500 hives are available, some with residential and commercial properties included, some relocatable, and often with very competent Managers in place.

Prices range from as low as \$548,000; through to \$15.0 million.

There is an insatiable demand for honey internationally and at present NZ is not able to meet that demand particularly Manuka.

Mike Bryce is Barker Business Brokers Apiary specialist.

If you like what you are reading and would like more information on these Apiaries and the markets available for the honey, you will need to visit www.barkerbusiness.co.nz/BBS2594, register your details and

Price \$548K – \$15M
