50 License Childcare Centre for Sale – Tauranga

This centre operates over a very larger space in a central Tauranga location. With changing housing habits and higher costs of building on large sites, this centre provides the space to give children a full outdoor experience.

The business has been operating for many years, recently under the ownership of a out of town vendor.

Profitable until the last year, the centre needs a burst of new energy from a new owner who is part of the Tauranga community, or one who can be there most of the time.

With current occupancy sitting around 50%, the Vendor recognises the need for change and is offering the business at a price to attract a wide range of possible owners, but particularly a teacher or current centre manager who wants to step up to ownership.

Current rent is under \$40 per child per week with lease terms out to 2038 providing long tenure.

The April 2020 ERO report has the centre at Well Placed .
