Lovely Franklin ECE for Sale

Licensed for over 80 children

\$595,000

The vendor is developing another childcare which has cost overruns... hence the opportunity here for someone that is prepared to act swiftly and simply.

This stunning childcare centre has come to the market presenting a real opportunity. The fitout and level of care is second to none, the hard yards have been completed and now it's ready for you to continue on with the amazing work completed to date. Excellent reputation, excellent stable staffing – this really is a gift horse.

With what is happening in the world and NZ, this industry has shown to be extremely robust and as safe as any industry can be. Funding has also just been increased slightly showing how important the government knows this industry is.

Purpose built and immaculate, well resourced, this is a true turn key investment opportunity (FULLY MANAGED). A new investor could easily handle this opportunity with the management in place, making any transition smooth. Like all business sales, staff and the community don't yet know of the impending business sale, so obviously strict confidentiality
