ONE WORKING OWNER CAN EARN \$300K PLUS P.A.

One working owner could step right in to this manufacturing business and take advantage of the simple systems and procedures in place to continue the earning capacity of \$300K plus per annum. While this cash surplus is already high, there is ample opportunity to advance even further by simply initiating a marketing programme as to date this business to date has simply relied on word of mouth! Operating on high margins, this industry is stimulating and rewarding with only minimal computer knowledge required to allow you to pick up the basic skills. This, together with the generous hand over period would make for an easy transition. While there is a loyal and easy to manage customer database, the nature of this business allows for relocation within the greater Auckland area. The owner has reduced the price by \$200,000 to \$690,000 in anticipation of a no-nonsense sale. Therefore genuine enquiries only please. If you are interested in light manufacturing please register your interest by completing the online Confidentiality Agreement @ www.barkerbusiness.co. Enter ref 1483 and Paul will be in touch very soon. Licenced REAA 2008. Copyright Barker Business Brokerage Ltd November 2011
