

Profitable New Zealand Video Production Business

Video content marketing has seen explosive growth for the past decade with 82% of internet traffic now being video!

This highly respected, long established Auckland-based video production business has doubled its turnover over the past twelve months by being flexible and responsive to changing client requirements during Covid.

After experiencing a Covid-related downturn in 2020/2021, the owner has doubled profit from \$250,000 in 2021 to being on track to achieve \$500,000 for the 2022 year.

This business presents an excellent opportunity for someone wanting a proven, profitable and solid business to run as it is or expand and grow further. The owner is happy to provide a transition period.

The current owner has been running the operation as a lifestyle business but has a clear plan for growth, should the new owner wish to increase the profits further. The business is fully systemised with the latest production and post production equipment.

Price \$1,030,000
