Import & Manufacture biz growing FAST!

Cash surplus circa \$245K for 2012 year end & \$350K for year end 2013 If you thought it wasn't possible to work less than one day a week from your home office and earn over \$300K, think again... Because this business owner is doing just that, RIGHT NOW!!! Established 5 and a half years ago when the owner saw an opportunity to import and manufacture in New Zealand, a range of custom, made to measure product line of quality componentry. The reality of this initiative is that today, the business is growing fast with the current off-season sales peaking up around last year's on-season sales. The manufacturing facility is located in South Auckland where overheads are kept very low allowing the owner to pass on extremely competitive rates to customers. A new, no expense spared website is scheduled to go live very soon. The website will offer customers an option to order online and this should crank up the sales even more! Why would anyone sell a business like this? The owner is not the kind of person who wanted to build an empire and does not want to commit himself to the increasing orders; this factor alone leaves the door wide open for a new savvy owner to walk in and take this business to newer, higher levels of growth and profits. Asking price of \$950,000 includes circa \$300K Stock & \$120K Plant. If you are interested and would like more information about this business, visit www.barkerbusiness.co.nz, register your details
