

Northland Chartered Accountancy Practice

We are happy to present a rare and well-established Chartered Accountancy practice with a rich history firmly cemented within Northland. Many of their initial clients remain with the practice today, a testament to the trust and relationships they've built over the years.

With annual fees of more than \$900k, the practice has experienced significant organic growth, driven by word-of-mouth referrals and their commitment to delivering on promises. They have refined their systems, processes, and team, leading to increased efficiency, and staying ahead of schedule.

As expected from a practice of this size, their diverse client base spans across a majority of sectors, offering a comprehensive range of services. A background in agriculture and horticulture would be beneficial for any incoming Director, but a general understanding suffices as the team are up to speed on all aspects of the business.

Additionally, a strong foundation in general business knowledge is crucial, as they often provide advice on a wide range of topics. This practice takes immense pride in the exceptional service and environment they offer each client.
