

Bay of Plenty Chartered Accountancy Practice

A well established Bay of Plenty accountancy practice is available for acquisition. This is a substantial practice with recurring fees, a strong local presence, modern systems, and advisory capability embedded across the team.

The practice has built a strong reputation through long standing client relationships, consistent referral growth, and a commercially focused approach extending beyond traditional compliance services.

The firm operates fully in the cloud with modern systems and structured internal processes, including the integration of AI driven workflow tools. The business is supported by an experienced team, including senior associates who play active leadership roles across advisory, review, and client management work. Client relationships are well spread throughout the practice, providing continuity and reducing reliance on one individual. The vendor is open to remaining involved for an agreed transition period to support continuity and assist with a smooth handover for clients and staff. Further information is available to qualified purchasers following completion of confidentiality requirements.
