Acquire a highly respected specialist engineering business with more than two decades of operating history, established revenues, recurring service income and a substantial project pipeline. The business delivers complex engineering, fabrication, installation, hydraulic, gas-generation and maritime access solutions across defence, marine, industrial processing and infrastructure sectors.

Key highlights include:

- Annual revenue of approximately NZ$6 million
- Diverse NZ and international customer base
- Recurring service and maintenance revenue
- Experienced engineering and technical team
- Project pipeline status NZ$19 million
- Exposure to defence and naval infrastructure markets
- Proprietary IP and specialist engineering capabilities
- Strong reputation for technically challenging projects

The acquisition also includes ownership participation in an advanced renewable energy and offshore desalination technology platform, developed through substantial historic

R&D investment with successful international deployments. This provides potential exposure to growing global water and renewable energy markets.

A combination of established engineering cashflow and technology growth potential.

Ideal for strategic acquirers, engineering groups, infrastructure investors, defence sector participants or private investors seeking a proven platform with significant upside.
