

## Hamilton Chartered Accountancy Practice

A centrally located Hamilton accountancy practice is available for acquisition. This is an established sole practitioner practice, supported by a small capable team, with a recurring fee base and long-standing client relationships. The practice operates with modern systems and a largely paperless approach, providing a sound platform for a purchaser to continue servicing the existing client base efficiently.

This opportunity may suit an existing accounting firm looking to increase its presence in Hamilton or the wider Waikato region. It may also suit an experienced practitioner seeking a manageable practice with team support already in place.
