

Established Akl Rental Business – Recurring Income, Strong Asset Backing

This is one of the strongest performers in its national network, consistently ahead of the network average on order value, fleet utilisation and the age and condition of its assets.

The rental fleet, vehicles, racking and workshop equipment are owned outright at around \$303,000 book value, with no finance or security over them. The franchise system provides the hire management and scheduling technology, national marketing, supplier relationships and training for an incoming owner.
