Established Import Business Keeps on Growing!

This Auckland based import / distribution business has been in this niche industry for almost 17 years supplying high quality product to their well established customer base; of which a large portion is made up of circa 1,400 active state owned facilities that are government funded to provide steady and consistent revenue throughout most of the year.

*They have very strong relationships with their suppliers and have confidence in the continuing enduring quality of the product. Currently home based and re-locatable; all that is required is an office and warehouse (approx. 100sqm) or utilise a home office and a storage facility as the owners report that customers very rarely visit the business location.

*The business has been built on service and thereafter maintaining customer relationships, so there is an opportunity to pro-actively market the product to further increase the consistent growth and steadily climbing revenue and profit margins. *Currently operated by a husband and wife team and one staff member – * the business netted the couple circa \$320,000 (plus) during F/Y 2014 based on EBPIDT. The retiring owners tell us that a new enthusiastic owner with fresh new ideas and marketing initiatives could lift the bottom line even further! This business opportunity could well be snapped up quickly as it is not often that we see a business that has grown so steadily, year upon year! Priced at
