

## Strong Manufacturer – Estimated EBIT of \$1Mill!

With an EBIT on track for \$1 mill and sales averaging \$4 mill over the last 6 years, here is a solid and impressive manufacturing business for sale, dealing with extremely high end NZ and international clients with an impressive portfolio to rival any business. With the Auckland and Christchurch building boom well underway and due to last for the foreseeable future, we believe this business will only flourish. Established over 20 years ago by the existing owners, they now wish to head in a new direction in life... However in saying that, the Vendors have agreed to provide a lengthy handover period or even consult back to the business for an extended period should a new owner wish. They are extremely proud of the businesses success and what they have achieved and don't under any circumstance want to see the business suffer. The business comes with a large pipeline of pre-ordered work, up to a year ahead which is impressive in itself. The business employs over 30 staff consistently, has excellent cash flow, comes with substantial IP (Registered Trademarks, protected design to name part) and impeccable trading history. A new buyer could be one of 2 things... You're either a person passionate about design and manufacturing with a flair for this or a business person wanting a solid return and keen to take over such an impressive business. Asking Price \$3.65M including stock & plant. This is a highly desirable business
