GREAT PROFITS BOOMING INDUSTRY

barker

Consistently Profitable – Manufacturing Business

A great income to the owner is just part of the story for this long established, successful Kitchen Cabinetry Manufacturing business.

Operating in the mid to upper end of the market, delivering modern contemporary kitchen cabinetry this business offers an “end to end” service to its customers. From initial 3D concept designs to precision CNC production capability, through to completion and installation of finished cabinetry, they enjoy a strong reputation for quality that has been built up over many years. The owner advises that this creates a lot of word of mouth referrals, as well as a solid backbone of repeat business.

Currently operating in the Eastern Auckland area, the business has a new lease on the current premises, with 2 further rights to renew. The workshop has space for further growth and includes both an office and showroom facilities. It is also well situated for access to the Southern Motorway.

The owner has indicated that the residential and commercial building sectors remain buoyant with future opportunities remaining very positive into the foreseeable future. The Auckland unitary plan also offers encouragement!

If you have experience in, or a passion for cabinetry this is a great opportunity for you to consider. Operating computer design systems (CAD) and robotic manufacturing systems (CNC), this is a highly efficient technology focused manufacturing business.

*Returning one working owner over. \$300,000 (EBPITD) per annum.

Asking \$850,000 including all assets.
