

LIQUID GOLD! NZs Fastest Growing Export Commodity

After over 40 years in business our Vendors are calling it a day. As this Manuka focused apiary with 3,500 hives has been so kind to them over the past many years, they have decided to retire and enjoy the substantial financial benefits this business and lifestyle has produced for them.

In a unique industry that is not able to keep up with global demand, this business requires a good leader to manage the many facets of the business.

High export returns and a limited supply of the precious Manuka Honey nationally is driving the price for this scarce commodity, and the issue that many processors and exporters are facing is the ability to guarantee their supply.

With some very smart investments made by the Vendors in the business over the years - particularly in purchasing very well-located Central North Island Manuka bearing properties totalling 973.67 ha (2405.99 acres) thereabouts; further substantial opportunity is almost guaranteed for this already successful business.

This is a fully registered and MPI approved vertically

Price \$16,500,000 incl 8 Properties

Ref BBS2247

integrated business right through to the filling line capable of both glass and PET, ensuring maximisation of margins through to Sales and Export markets.

Well located in the central North Island they can capture the additional income benefits the region offers – in addition to the Manuka season.

Asking price:

Business: \$ 5,175,000 (incl stock of \$1.7M)

Properties: \$11,325,000 (8 x Titles)

Total: \$16,500,000 + GST if any

This business is expected to be highly sought after. If you are keen to become a key player in the Manuka Honey industry, this business and the properties offer serious consideration.
